

MODULE 1 – Creation of Users and Roles

Milestone-1 | Timer: 3 Hours

ServiceNow Lab – Script-Controlled ACL

Objective

- Create a test EEE user and four custom roles (bb1, bb2, bb3, bb4) for ACL testing.

User Creation

- Log in with admin access.
- Navigate to User Administration → Users.
- Click New.
- User ID: EEE User
- First name: EEE
- Last name: User
- Email: eeeuser@gmail.com
- Click Save/Submit.

Role Creation

- Navigate to User Administration → Roles.
- Click New.
- Create role bb1 and add a brief description.
- Click Submit.
- Repeat for bb2, bb3 and bb4.
- Assign bb1, bb2, bb3 and bb4 to the EEE User.

Verification

- Open the EEE User record and verify all four roles are assigned.
- Use impersonation later to test the ACL permissions.

Expected Result

- EEE User is created successfully and has bb1, bb2, bb3 and bb4 roles.
